

We Three Lads

My Project is rather very simple. It is a song, I will be singing a song to the class. The lyrics go along with the famous tune We Three Kings. Since it is the Christmas Season I thought it would be appropriate

I am in Madrigals, at Fallbrook High, so those of you who may know me as coming in late every week, it's cause I live quite a ways away and come straight from lunch.

I really enjoy to sing, and because I'm not very creative, I thought that I should do what I enjoy and am good at, and since I couldn't come up with any creative project that has to do with running I chose the next best thing.

The piece I will be presenting is called "We Three Lads"

*We three lads of Middle Earth Are
Ring bearers we traverse a far
Field and fountain moor and mountain
Towards the crack of doom*

*Chorus:
O-- Ring of power, ring so rare
We must take you east so drear
Towards the fire of you master
Destroying evil desire*

*Sam and Frodo, Gollum are we
Facing fate towards danger we flee
To the shadow of the ring wraiths
Off on a helpless quest*

Chorus

*Long our quest was full of peril
But prophecy in end must fulfill
Orcs and Goblins, Kings and spiders
All met along the way*

Chorus

*Finally our Quest is fulfilled
The ring destroyed and peace restored
Now we leave to better places
Of into gray Havens*

*O-- Good and truth are victor now
But we lost our Gollum pal
Westward leading now proceeding
Off into new age we go*
