Twelfth Night Entanglements

Orohino loves

Viola loves
        (Casario)

Olivia

Malvolio     Sebastian

Orohino loves Olivia, who loves Casario/Viola. Viola, in turn, loves Casario. This is the first triangular grouping of characters. The second is Olivia's fate in love with Sebastian (Viola's long-lost brother) and Malvolio loves Olivia. The characters interact and play off one another throughout the play until the last act. Viola and Orohino make the match as do Olivia and Sebastian. Malvolio is the odd man out. Supposedly, all live happily ever after, with the possible exception of Malvolio.
